

# OHIO NATIVE SPRING WILDFLOWER CHECKLIST

Ohio is home to over 1,800 native species of plants. This includes hundreds of spring wildflowers that bloom from March to May every year. This checklist highlights our common forest dwelling wildflowers and a number of rare and grassland species, too. Please enjoy using this checklist while out exploring any natural area in Ohio. To find more information on Ohio's wildflowers visit [ohiodnr.gov](http://ohiodnr.gov).

\* = open habitat (grassland and/or savanna)  
 R = rare species  
 R\* = state listed
