

In accordance with the implementation of the One-Call Emergency Notification System, all Oil and Gas related occurrences at Ohio Revised Code (ORC), Section 1509-regulated facilities and midstream facilities (which includes shale oil processing facilities, pipelines, or other gas related incidents) shall be reported using the 24/7 Ohio One-Call Incident Notification toll-free number:

1-844-OHCALL1 (1-844-642-2551)

As defined by Ohio Administrative Code (OAC) 1501:9-8-01 (K), "Reporting person" means an owner, a person to whom a permit is issued under 1509 of the ORC or under division 1501:9 of the OAC authorizing an activity, a person to whom a registration certificate is issued under 1509.222 of the ORC, or a person engaged in an activity pursuant to 1509.226 of the ORC.

A reporting person is required to make a call to the Ohio One-Call System within 30-minutes after becoming aware of a reportable occurrence, unless notification within that time is impracticable under the circumstances.

ODNR's 24-hour dispatching center will receive all calls made to **1-844-OHCALL1** and will make notifications to the following agencies:

- **ODNR, Division of Oil and Gas Resources Management (DOGRM)**
- **Ohio Department of Commerce (ODC)/ State Fire Marshal (SFM)**
- **Ohio Environmental Protection Agency (OEPA)**
- **Public Utilities Commission of Ohio (PUCO)**
- **ODNR, Division of Wildlife (DOW)**

This requirement does not change current federal/SERC regulations for 30-minute notification to the local fire department and Local Emergency Planning Committee (LEPC).

OAC 3750-25-25

Once ODNR has fulfilled its initial notification of a reportable occurrence, each respective department or agency is responsible for making its own internal notifications and deploying its resources and personnel to respond to the emergency, as needed.

All other spills and environmental emergencies not related to 1509-regulated facilities and midstream facilities (as stated above), should be reported to Ohio EPA's Spill Hotline at **1-800-282-9378**.

In addition, any reportable quantity releases involving CERCLA hazardous substances or oil to navigable waters, shall be reported to the National Response Center (NRC) as soon as possible. The National Response Center (NRC) 24-hour number is **1-800-424-8802**.

THE FOLLOWING ARE REPORTABLE INCIDENTS:

(OAC 1501:9-8-02)

TYPE OF INCIDENT <small>(All Incident types associated with production operation or other activity regulated under Chapter 1509)</small>	QUANTITY <small>(GAL, BBL,PPM)</small> NOTE: 1 Barrel = 42 US Gallons	ADDITIONAL FACTORS
Release of Gas	Any amount	Resulting from a Blow out; OR Uncontrolled Pop-off Valve (in Urban Area); OR Any gas release that is a threat to public safety
Release of Hydrogen Sulfide(H₂S) Gas <small>(within the Working Area)</small>	Exceeding 20 ppm (Sustained airborne concentration); For duration > 10 min	OR any H ₂ S release resulting in injury or death of person
Fire / Explosion	N/A	In which a reporting person has called an emergency responder (9-1-1 or Fire Dept)
Release of Oil, Condensate, or Materials Saturated with Oil or Condensate	> 210 US gallons in any 24-hr period (Estimated)	AND the release is OUTSIDE secondary containment & into the environment
Release of Oil, Condensate, or Materials Saturated with Oil or Condensate	> 25 US gallons in any 24-hr period (Estimated); AND the release is outside secondary containment and into the environment	In an urban area; OR In an Emergency Management Zone of a surface water public drinking supply; OR In a 5-year time of travel with a groundwater-based public drinking supply; OR In a 100-year flood hazard area as delineated on the federal emergency management agency's (FEMA) national flood insurance rate map
Release of Refined Oil Products <small>(EX: oil-based drilling fluid, petroleum distillate, spent or unused paraffin solvent, gasoline, fuel oil, diesel fuel, or lubricants)</small>	> 25 US gallons in any 24-hr period	AND the release is OUTSIDE secondary containment & into the environment
Release of Oil, Condensate, or Materials Saturated with Oil or Condensate; <u>OR</u> Refined Oil Products	Any amount	That enters waters of the state in an amount that causes a film or sheen on the surface of the water
Release of Brine or Semi-Solid Waste <small>(EX: drilling mud, sludge, or tank bottom sediments)</small>	> 42 US gallons in any 24-hr period	AND the release is OUTSIDE secondary containment & into the environment
Release of Brine from a Vehicle, Vessel, Railcar, or Container	> 42 US gallons	AND is operated by a person to whom a registration certificate has been issued (ORC 1509.222), or to whom a resolution has been issued (ORC 1509.226) AND enters the environment
Release of Hazardous Substance (HS)/ Extremely Hazardous Substance (EHS); <u>OR</u> Mixture or Solution including a HS or EHS	An amount Equal to or > than applicable reportable quantities listed in 40CFR tables; in any 24-hr period If the amount of one or more HS or EHS released is in an unknown mixture or solution, notify when the total amount of the mixture or solution released is <u>equal to or > than</u> the reportable quantity for the HS or EHS with the lowest reportable quantity	List available at: http://oilandgas.ohiodnr.gov/portals/oilgas/pdf/emergency/list_of_lists.pdf <u>Code of Federal Regulations (C.F.R.) References:</u> HS- Appendix A 40 CFR Part 302.4 EHS- Appendix A 40 CFR Part 355

THE FOLLOWING ARE NOT REPORTABLE INCIDENTS:

(OAC 1501:9-8-02 (A)(7))

1. Controlled flaring or controlled burns authorized under Chapter 1509. of the Revised Code or under 1501:9 of the Administrative Code or authorized by the terms and conditions of a permit issued under Chapter 1509. of the Revised Code;
2. Properly functioning emission control devices authorized pursuant to Revised Code Section 3704.03;
3. Subsurface detonation of perforation-guns;
4. Seismic shots;
5. Controlled blasting for well site construction
