

List of Disease Surveillance Areas

(A) The chief of the division of wildlife or the chief's designee may establish disease surveillance areas within the state if chronic wasting disease or bovine tuberculosis is detected in a member of the cervidae family.

(1) The disease surveillance area shall include all areas within a minimum of six miles centering on the location of the detection of chronic wasting disease.

(2) The boundaries of the disease surveillance area will be established by utilizing existing boundaries of political subdivisions of the state, roadways or rivers.

(3) The list of areas established as a disease surveillance area will be published by the division of wildlife and posted on the Ohio division of wildlife website at wildohio.gov.
